Response to Amendment

The reply filed on 10-7-2009 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant's arguments do not particularly point out how the new claims overcome the art when read in light applicant's specification. Applicant claims that the current -equalizing conductor surrounds the contactable surface, however a brief review of applicant specification only shows the current-equalizing member to partially surround the contactable surface. The examiner is not sure how to interpret this limitation when read in light of applicant's specification since it is not apparent as to how it is supported by applicant's original disclosure. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark W. Bockelman whose telephone number is (571) 272-4941. The examiner can normally be reached on Monday - Friday 8:00 - 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Layno can be reached on (571) 272 -4949. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
